QUALITY	
Agile Defender	RG 127
Big Baby	KC 77
BIG BABY	
BONUS: 4 KARMA	
Pain is a fact of life in the Sixth World, and shadowrunners know that better than most. While most runners accept that they are going to get hurt and are prepared to deal with it, others flinch from the possibility of damage, and this gets more severe each time they actually get hurt. When they're out on the job, if they are burned, shot, zapped, punched, or otherwise damaged, the character becomes extremely reluctant to rejoin the fray.	
When a character with this quality is dealt Physical damage, they suffer a -1 penalty to combat dice pools until the enemy or obstacle that dealt the damage is overcome or destroyed.	
Biocompatibility (Cyberware)	CF 54

## DISTINCTIVE STYLE

BONUS: 5 KARMA

A character with the Distinctive Style quality has at least one aspect of his appearance, mannerism, or personality that makes him inconveniently memorable. Choices for Distinctive Style include, but are by no means limited to: tattoos that cannot be easily concealed, an accent or atypical manner of speaking, bizarre fashion choices, scars, gang or prison signs, flashy custom augmentations, or non-metahuman modifications like a tail. Note that what's distinctive in one culture or location may not be in another.

Whatever Distinctive Style the player selects makes her character easy to remember. Anyone who attempts to identify, trace, or physically locate this character (or gain information about him via legwork) receives a +2 dice pool modifier for relevant tests. If an NPC makes a Memory Test (p. 152) to determine how much they recall about the character, reduce the Difficulty Threshold by 1, to a minimum of 1.

This quality is physical in nature and does not apply to astral searches. This quality may only be taken once.

This quality is incompatible with Blandness.

Custom mace, Yakuza-style chest nanotat is rarely off, Yakuza-orksplotation fusion fits.

## Perfect Time

RF 148

### PERFECT TIME

COST: 5 KARMA

Who needs a watch when you're around? The character with this quality always knows the time, down to the minute, and has a perfect sense of rhythm and timing. This perfect sense can only be obstructed through prolonged isolation, unconsciousness, or distortion of temporal perception through drugs, chips, or an extended period in the Matrix. This quality provides two game benefits: a +1 dice pool modifier for Performance Tests involving timing and rhythm, along with an additional Free Action during every Action Phase.

## Phobia (Uncommon, Mild): Torture Devices

RF 157

## Poor Self Control (Combat Monster)

RF 158

## Records on File: EVO

RF 158

### RECORDS ON FILE

BONUS: 1 KARMA PER RATING

(MAX RATING 10)

For every point of Karma spent on this quality, one of the Big 10 megacorps possesses a relatively up-to-date record of the character's SIN, biometrics, person

## Redliner

CF 55

### REDLINER

(COST: 10 KARMA)

Any cyberlimbs you have installed are jacked-to-themax, with safety limits disabled and performance overclocked beyond what the warranty normally covers, and that's the way you like it. You receive +1 Strength and +1 Agility for every two full cyberarms or cyberlegs installed, up to a maximum of +2 for both attributes (sorry, no super centipede-man builds). The downside to pushing your 'ware that hard, however, is that the strain is quite damaging. You lose three Physical Condition Monitor boxes per two full cyberarms and legs installed. Normally, every cyberlimb gives you one additional box, but with this quality, after two full limbs you end up with net one less box (i.e., -1 instead of +2).

## Thermographic Vision

SR5 66

## MARTIAL ART

### Wrestling (Sport Style)

RG 134

#### WRESTLING (SPORT STYLE)

This is the revered ancient art of throwing your opponent to the ground and holding him there till he cries "uncle." Wrestling is one of the oldest forms of combat.

Reportedly existing for some four thousand years, with more formal rules from all over the world. Grappling your opponent and subduing him is the key strategy with this style while throwing him to the ground is optional. Several folk wrestling styles including Mongolian Bök and Cambodian Bok Cham Bab have similar rules to the Sport style of wrestling.

Available Techniques: Clinch, Constrictor's Crush, Jiao Di (Knock Down), Karmic Response, Sweep, Throw Person

Sweep

ACTIVE HARDWIRES			
Programmed with a single, unchangeable, active skill, active hardwires are a dedicated skillwire system that holds only a single skill. While this skill may not be changed, multiple active hardwires may be implanted into a person, each granting one active skill. Note that the active hardwire system includes its own processor, meaning that no skilljack is needed to operate it.			
Bone Lacing (Aluminum)	0.90	Standard	SR5 454
Bone Lacing does not increase your BOD score, only tests for resisting damage.			
Datajack	0.11	Used	SR5 452
Datajack: A datajack gives you a direct neural inter- face (p. 222), which can be handy in a lot of situations. It also comes with a retractable spool of micro-cable (about a meter long) that lets you directly interface with any electronic device via a universal access cable. Datajacks are equipped with their own cache of storage memory for downloading or saving files. Two datajack users can string a fiberoptic cable between themselves to conduct a private mental communication immune to radio interception or eavesdropping.			
Universal Connector Cord Rating 1			
Nanotattoos 3	0.00	None	CF 148
NANOTATTOOS			
Once injected, nanotattoo hard machines embed themselves as a lattice of liquid crystal microdisplays under the subject's skin. A Rating 1 nanotattoo covers one limb or the face, Rating 2 covers half the body, and Rating 3 covers the whole body. A nanotattoo (or "nanotat") can be reprogrammed to display any image the user wishes, including preprogrammed animation. They can also be programmed to be inactive and appear indistinguishable from your normal skin. Reprogramming nanotats in this manner does not reduce its rating. Nanotattoos can provide effective camouflage, if you have a full body treatment and you're not wearing much, imposing a -1 dice pool modifier to Perception tests to detect you visually.			
Typically a Yakuza-style tattoo across the chest and shoulders of a troll wearing a dragon's maw as a helm.

Glasses	4	1	SR5 443
Flare Compensation, Low Light, Vision Enhancement rating 2;			
Glasses: Glasses are lenses contained in light- weight frames worn on the bridge of the nose; numerous cosmetic styles are available, and vision-enhancement-equipped glasses are hard to distinguish from prescription glasses or sunglasses at a glance.			
Kamikaze	-	3	SR5 412
Pharmaceutical;			
KAMIKAZE			
Vector: Inhalation Speed: Immediate Duration: 10 x 1D6 minutes Addiction Type: Physiological Effect: +1 Body, +1 Agility, +2 Strength, +1 Willpower, +2 Physical limit, +2D6 Initiative Dice, High Pain Tolerance 3 (p. 74) Kamikaze is a tailored combat stimulant. When kamikaze wears off, the user crashes and suffers -1 Reaction, -1 Willpower, and -2 to all Limits for a duration equal to that of the initial effect. He also suffers 6 Stun damage (unresisted).			
The repeated use of kamikaze has a destructive effect on the user's metabolism. Large doses can cause excitement, tremors, momentary euphoria, and dilated pupils. Excess doses (bordering on overdose level) cause anxiety, hallucinations, and uncontrolled muscular movements. Even higher dosages lead to death. Kamikaze users are near-crazed, filled with a feeling of imperviousness and invincibility, exhibiting almost no regard for their own well-being. They can be entertaining to watch, as long as you're not in front of them.			
MCT Blue Defender	-	1	DT 61
MCT BLUE DEFENDER			
This commlink comes standard as a wristband that is, as you'd expect, blue. Designed for legitimate sale to security forces and off-the-books distribution to shadowrunners and criminals worldwide, this stylish bracelet protects your devices from evil hackers with a stronger-than-average Firewall.			
Medkit	4	1	SR5 450
Medkit: The medkit includes drug supplies, bandages, tools, and a (talkative) doctor expert system that can advise the user on techniques to handle most typical medical emergencies (including fractures, gunshot wounds, chemical wounds, and poisoning, as well as offering advice for the treating of shock, handling blood loss, and of course performing resuscitations). Add the medkit's rating to your limit on First Aid tests. A medkit of Rating 3 or lower fits in a pocket; at Rating 4+ it's a handheld case. The medkit needs to be restocked after every (Rating) uses.

LIFESTYLE	LEVEL	COST	DURATION
Well he's a wanderer (Puyallup City, Puyallup, Seattle) Grid Subscription (Public Grid);	Squatter	1,200¥	1 Month
SR5 369			
Grond is often found wandering the streets to keep his gear safe. After all, the best form of security is himself, and apart from his bicycle it all fits in a duffel bag. Storage lockers at transit stations make for good storage of both bags and bicycles, and are often near to locations of interest. When he needs sleep, he has a shortlist of motels that aren't too dicey, and have good locks on the doors, but don't ask too many questions. Still, he sleeps light, with his mace on hand and credsticks in his pyjamas pockets, with the duffel bag packed on the floor next to him.			

CONTACT	LOCATION	ARCHETYPE	CONNECTION	LOYALTY
Donovan Lombardi	Puyallup City	Fixer	6	1
Metatype: Ork				
Gender: Male				
Age: Middle-Aged				
A splinter of the Gianelli family, thrice removed, Donovan isn't directly involved in the Mafia, but he's sure got the contacts to make them move--or for them to make him move. Like most well-off Italian-Americans, he's never far from a good suit and meal, preferably with a glass of wine, and keeps his physique trim and tusks as white as a trid star. Some people call him "Don Lombardi," leading to confusion, though he himself insists on being called "Donovan" or "Mr. Lombardi," as "Ah ain't no do~n!"				
Grond is a pet project of his--some cyberpsycho a team of Don's picked up on a job and didn't know what to do with. Don put him to work as an independent, when the Gianelli's needed someone to be a little more roughed up than usual, but the kid had talent and a good head on his shoulders, leading Donovan to give him bigger jobs until the Hub invitation showed up on his comm one day.				
Hank Killer	Tacoma side of Puyallup City	Sensei (Wrestling (Sport Style))	1	1
Metatype: Human				
Gender: Male				
Age: Old				
Personal Life: Widowed				
Hank runs a wrestling academy just off W Stewart and E Main, teaching his skills to anyone who will listen. He's far past his prime, and has no awards to his name, but his skills are the real deal.				
To put it frankly, though, he's old. Gray hair, gray eyes, and a gray outlook on life. "Killer" probably isn't even the name on his SIN, and it's almost certain the only way his 'business' is afloat is from a generous pension plan. Even with the "Puyallup discount." His once toned muscles hhave given way to a wiry frame, and though he still stands proud, in moments of weakness his students see him slouch. Those moments grow more frequent every day.				
Still, he proudly passes down his craft, with no prejudice for metatype or augmentation. His school rarely has more than one student at a time present anyway, so differences in physique when sparring isn't an issue. So, how fortunate did he think he was when a hulking troll knocked on his door, genuinely interested in his techniques; none of those plebian masses looking for entertainment wrestling, but someone who wanted to know how to grab, pin, and throw in a proper brawl. Imagine his disappointment when all the troll wanted to know was how to hold back his rippling physique and oversized chrome limbs from breaking everything he touched.				
Still, Killer taught Grond control first, in the back of his mind telling himself that it was all so he could better teach Grond. All the while, his mouth was weaving stories of his heyday, and the techniques Grond had yet to even begin learning, in hopes that the troll would return, and Killer could use his techniques vicariously.				

Description
Giant beefcake of a troll. Bro's got fucking aura. Around the barrens he's usually in full combat gear, the classic Big Game Hunter + addons combo. Not that he needs it. He may look like a knight, but that big fuck-off osmium mace and SWAT shield aren't just for show, though you could probably tell by how he effortlessly hefts with a single hand something most people can't even lift. If you catch him with something more casual, he's a fan of open-breast orksploitation suits styled like some wannabe Yak, showing off his chrome and a tattoo of a troll wearing a dragon's maw as a helm across his chest. Usually white, of course.

## Background

You know the problem with making a bulletproof troll that can bust through walls? Well, now you have to somehow contain the bulletproof troll who can bust through walls. Non-lethally, since it represents such an investment.

It's hard to say who would fund such a thing, especially when the "victim" himself didn't know. Years of torture broke them initially, giving the gang the control they needed for the initial modifications. But their goal was to push the physical limits of the cheap chrome they could afford. You might say they got lucky with the candidate, but the trail of dead trolls says otherwise, and they were able to fit chrome in excess into this one to match military specifications--not realizing, of course, that the military specification called for much higher grade 'ware than they could afford. Still, the ripperdocs did what they did best: make medically dubious decisions, implanting 'ware far past its sell-by-date and hoping for the best. Sure, they got some quality stuff, but it's obvious the budget became an issue on this project, which they made up for by overclocking.

Now we get back to the original problem, and at that point even the ripperdocs were saying enough was enough. Sure, someone might have pushed to try and implant a kink bomb, but everyone agreed that this prototype couldn't be reproduced and was unstable as it was. So they used a bomb collar, and that seemed to keep him in line. The gang used their creation to make a name for themselves, which attracted the unfortunate ire of the Gianellis. But even the Gianellis didn't want to deal with the bulletproof fragging troll.

So they hired a team. Y'see, the difference between these grassroots mad scientists and organized crime is resources. The Gianellis didn't have a big frag off troll because they didn't *need* a big frag off troll. They could just hire one, when needed, not that they did in this instance.

Well, shadowrunners work smarter, not harder, and they did their legwork right on this one: Rather than crush this gang themselves, as the job description implied, with a few strokes of his deck the decker deactivated the bomb collar. They then infiltrated the facility, who for all intents and purposes Grond was the only guard, and told him their work.

Though not the brightest, he had an inkling the bomb was disarmed, so before the Face could finish talking was already walking towards the boss' office. The gang's leadership was literally and figuratively dismantled that night, with the runners taking care of any important loose threads.

With no SIN and no skills, Grond would have trouble navigating his free life, but no sane businessman would let such an asset be squandered like that. The team's fixer made contact, and the rest is history.
