QUALITY	
Biocompatibility (Cyberware)	CF 54
Cyber-Singularity Seeker	CF 54
Linguist	RF 148
LINGUIST COST: 4 KARMA Nothing impresses an out-of-town Johnson more than negotiating in their native tongue. And knowing when they're telling their goon squad to kill you is pretty useful too. This quality represents a natural gift for learning and understanding languages. Characters with this quality halve the learning time for a language, and the quality also provides a +1 dice pool modifier to all Language skill tests the character makes. If this quality is purchased at character creation, the player purchases Language skill points at a 2-for-1 rate. After character creation, language skill ranks of 3 or higher receive a 1 Karma cost reduction for each rank.	
Magician	SR5 69
MAGICIANS <ul style="list-style-type: none"> • Magicians can astrally perceive. • Magicians can astrally project. • Magicians can choose freely from the magical skills or skill groups (Sorcery, Conjuring, Enchanting). • Magicians can cast spells, conjure spirits, or enchant magical items. • At character creation, magicians who cast spells, perform rituals, or create alchemical preparations may know a maximum number of formulae from each group equal to their Magic Rating x 2 (i.e., Magic Rating of 4 allows 8 spells, 8 rituals, 8 alchemical preparations). 	
School of Hard Knocks	RF 149
SCHOOL OF HARD KNOCKS COST: 4 KARMA The streets were this character's classroom. Thanks to all the time spent trying to stay one step ahead of the next guy, and knowing that knowledge is power on the streets, the character can buy Street Knowledge skills at a rate of 2 for 1 during character creation. After character creation, Street Knowledge skill ranks of 3 or higher receive a 1 Karma cost reduction for each rank.

IMPLANT	ESSENCE	GRADE	
Narco	0.20	None	CF 159
NARCO This is a set of several minor genetic modifications that have the collective effect of modifying the way your body processes drugs. These genes were discovered through study of survivors of years of heavy substance abuse. While you become more likely to become addicted to drugs, you experience greater effects of drugs and lessened effects when they wear off. Any drug that grants a positive attribute modifier as an effect increases that modifier by +1. Any drug that deals damage when it wears off deals two less damage, and any negative effects that occur when a drug wears off

ZOÉ		
The Zoé/Armanté fashion shadow war was a major victory for Armanté in terms of getting the line back in house (though now under the yoke of Aztechnology), but Zoé made quite a stir with some of the things their R&D division popped out in an effort to protect key execs from Armanté retaliation.		
> That particular war isn't over, and Zoé has found some megacorporate backing of their own. Both Horizon and Lone Star executives have been seen wearing Zoé in the boardrooms and back offices far more than they had in the past.

NAME				RTG QTY			
Binoculars, Optical				-	1	SR5	443
Vision Magnification;							
Magical Lodge Materials (Buddhism)				2	1	SR5	326
Miniwelder				-	1	SR5	448
Miniwelder: This portable device creates a small electric arc to melt metals, either to cut through metal or to weld it together. Its power supply allows it to operate for 30 minutes. While creating an intense heat, the arc is much too small to make a good weapon (it would be like trying to stab someone with a lighter). The miniwelder has a Damage Value of 25 when used to cut through barriers.							
Miniwelder Fuel Canister				-	1	SR5	448
Stealth Tags				-	10	SR5	440
Stealth tags: A stealth tag always runs silent (p. 235) and has a Sleaze rating equal to its Device Rating. It's disguised to not look like RFID tags, which gives it an additional -2 Concealability modifier. Stealth tags are often used as a backup for security tags by megacorps that are security conscious (and sneaky). They can be implanted the same way security tags can.							
Ammo							
Ammo: Explosive Rounds (Assault Rifles)				-	100	SR5	434
Ammo: Stick-n-Shock (Assault Rifles)				-	100	SR5	434
Ammo: Subsonic (Assault Rifles)				-	100	HT	189
Attire

Fashion Gasmask				-	1	CA	141

NAME				RTG QTY			
Attire							
Monocle				4	1	SR5	444
Flare Compensation, Low Light, Smartlink, Thermographic Vision;							
Monocle: A monocle is worn on a headband or helmet with a flip-down arm, or (for the old-fashioned look) on a chain.							
Trode Patch				-	1	KC	60
TRODE PATCH							
Are you sick of hiding your trodes in your hats or having that gelly goop getting stuck in your hair?							
Well, then, it's time to rejoice with MCT's latest design for virtual access with minimal hassle. The full trode rig will soon be a relic of the past, and getting a hole drilled in your skull for a datajack just won't be necessary anymore with the ultra-sleek trode patch.							
About the size of an old-fashioned quarter, or about 2.5 centimeters in diameter for those unfamiliar with ancient UCAS coins, the trode patch allows the same level of DNI interface as a full rig, but rather than needing a full net or headband of them, it's a single small piece. It requires direct skin contact near the brain, so a small patch of bare skin on the cranium is needed, but that's better than a hole in the head any day. Many models even come with a custom exterior that can match your hair, or you can get one with any number of logos or designs.							
Comms							
Meta Link				-	1	SR5	438
Micro-Transceiver				-	1	SR5	441
Micro-transceiver: This classic short-range communicator has been favored by professional operatives since the 2050s. It doesn't do anything special, it just lets you communicate by voice with other micro-transceivers and commlinks that you (and the other person) choose, within a kilometer. The micro-transceiver consists of an ear bud and an adhesive subvocal microphone (p. 439), both of which are commonly available in hard-to-spot designs.							

NAME				RTG QTY			
Pharma							
Kamikaze				-	1	SR5	412
Pharmaceutical;							
KAMIKAZE							
Vector: Inhalation Speed: Immediate Duration: 10 x 1D6 minutes Addiction Type: Physiological Effect: +1 Body, +1 Agility, +2 Strength, +1 Willpower, +2 Physical limit, +2D6 Initiative Dice, High Pain Tolerance 3 (p. 74) Kamikaze is a tailored combat stimulant. When kamikaze wears off, the user crashes and suffers -1 Reaction, -1 Willpower, and -2 to all Limits for a duration equal to that of the initial effect. He also suffers 6 Stun damage (unresisted).							
The repeated use of kamikaze has a destructive effect on the user's metabolism. Large doses can cause excitement, tremors, momentary euphoria, and dilated pupils. Excess doses (bordering on overdose level) cause anxiety, hallucinations, and uncontrolled muscular movements. Even higher dosages lead to death. Kamikaze users are near-crazed, filled with a feeling of imperviousness and invincibility, exhibiting almost no regard for their own well-being. They can be entertaining to watch, as long as you're not in front of them.							
Psyche				-	1	SR5	412
Pharmaceutical;							
PSYCHE							
Vector: Ingestion Speed: 10 minutes Duration: (12—Body) hours, minimum of 1 hour Addiction Type: Psychological Effect: +1 Intuition, +1 Logic, +1 Mental limit This designer stimulant is especially prized by magicians and technomancers alike. In addition to the effects noted above, Awakened users also only suffer a -1 dice pool modifier for each sustained spell (rather than the standard -2). Psyche users are simultaneously hyper-aware and detached, easily absorbed by detail and obsessive about certain facts or problems.

SAVIOR MEDKIT			
Originally developed by Shiawase Biotech but now available from several corps, these advanced medkits combine cutting-edge nanotech and advanced expert systems. When activated, the medkit injects enough nanites to last five minutes into its subject. The savior then acts as a Rating 6 medkit and follows all the normal rules for medkits (p. 450, SR5). If the patient is bleeding out, the savior's nanites act as a trauma control system (p. 148) for the duration. The savior's supply of nanites is limited, and it must be restocked every time it is used.

John Fortnite	Tilted Towers	Fixer	5	1
John Fortnite is the spitting image of the late simsense actor, Keanu "V" Reeves III. He can be found shilling "V bucks" on the street, his own made up currency, or asking for credstick codes to support him achieving "number one victory royale," whatever that means. But don't mess with V: If he wants your body, he'll fuck it.				

Concept
Wuxing mage hunter-killer. Provides magic support and geeks the mage.

Description
A mage hunter fresh off the boat from Taiwan in search of their quarry. They work with the Triads and Shadow community both to infiltrate, and to raise funds for their goal. After all, Wuxing, like most megas, won't lift a finger against runners unless it's profitable.

Background
Lin Da Fong, 24. Born to mundane parents in a Wuxing arcology in Taipei. Passed selection, and Awakened as a full mage at age 13 as part of the magical education program. Their lacking intelligence made the Wuxing ways difficult, but the instructors were able to twist the Buddhist teachings to fit while still performing indoctrination. Hardly the brightest bulb, they enlisted at 18, preferring hands on training to book learning, though were still able to quickly pick up languages when not getting skills and knowledge literally beat into them. After graduating, they spent two years providing magical security at key sites in the arcology to gain counter-mage experience, and was recently transferred to "internal affairs." Having received their first assignment, they have transferred to handlers in Seattle, the last known location of their mark.
